

# Accounting for Audiologists & Hearing Clinics

ACCOUNTANTS WHO THINK OUTSIDE THE BOX

*“We recognise the fact that running a hearing clinic or audiology practice is very demanding and dealing with public health issues can be very stressful. Apart from providing assistance with the usual compliance issues of GST, BAS, PAYG and superannuation, we’ll advise you on the most appropriate tax structure for your business.”*

*Jim Ulrich - Principal*

Over the years, JTU Accounting Group and our team of accountants have mentored dozens of audiologists through the various stages of their business life cycle – from start up right through to sale of their clinics.

## ***Thinking of Starting Your Own Audiology Clinic?***

There are numerous issues to consider when starting or buying into an audiology business. As a business start-up specialist we can assist you with your branding, business structure, site selection, commercial lease, corporate brochure, marketing and even your website. We have developed a number of tools for new business owners including a comprehensive checklist of start up expenses broken down into categories including leasehold improvements, IT costs, marketing and purchase or lease of medical equipment. These figures then automatically feed through to an integrated cash flow budget to help you identify any finance requirements. These forecasts can then tuck into your business plan.

# Accounting for Audiologists & Hearing Clinics

*"We are so much more than just tax Accountants. We offer you strategies to grow your business, your profits and your wealth. Over the years audiologists and other health care professionals have become a real niche within our accounting practice and if you're looking to get the right advice when starting, buying or developing your audiology practice or clinic, call us today on (03) 9878 5444 ."*

*Jim Ulrich - Principal*
